Headlines such as these are becoming common place. It seems that life is increasingly violent and dangerous. Events around the world and closer to home threaten our safety, our peace, our way of life. Life seems quite uncertain.

In the face of these unsettled times, is peace of mind possible? No one is totally protected from these evils. When danger and suffering surround, many feel that lasting peace or tranquility is impossible.

In contrast to that feeling, true peace of mind is really possible. Christians can and do know peace in the face of troubles, sorrows, and the uncertainty of life. They know that there is a God in control of all these events, and that he is a Father who loves and cares for his people. They have a sure hope of lasting peace in their lives. They have this by faith in Jesus Christ.

You are cordially invited to hear about the God who rules all things for the good of his people, and how God gives true and lasting peace.

About the Speaker:
